

PROFESSIONAL SUMMARY

Results-driven Junior Java Backend Developer with **1.6+ Years** of hands-on experience at **TCS** building scalable backend solutions using Java, Spring Boot, and REST APIs. Designed and optimized **10+ RESTful APIs**, reduced database response time by **25%**, and cut API defects by **40%**. Strong foundation in Spring Data JPA, MySQL, Agile methodologies, and SDLC. Passionate about developing high-performance, maintainable applications in fast-paced environments.

TECHNICAL SKILLS

- **Languages:** Java (Core + Advanced), SQL, PHP
- **Backend:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, Microservices (Basics)
- **Databases:** MySQL (Joins, Indexing, Transactions, ACID), Oracle
- **Tools:** Git/GitHub, Maven, Postman, JDBC
- **Concepts:** OOPs, Collections, Exception Handling, Multithreading (Basics), Design Patterns (Basics), MVC Architecture, CRUD Operations
- **Methodologies:** SDLC, Agile (Scrum, Kanban), Code Reviews

CERTIFICATIONS & COURSEWORK

- Java Programming & OOP Concepts — Core Java, Collections, Exception Handling
- Spring Boot & REST API Development — Controllers, Services, JPA, CRUD Operations
- SQL & Database Management — MySQL Queries, Joins, Indexing, Transactions
- Version Control — Git & GitHub (Branching, Commits, Pull Requests)

PROFESSIONAL EXPERIENCE

Backend Developer Trainee

Tata Consultancy Services (TCS), Hyderabad

Mar 2025 – Present

- Designed and implemented **10+ RESTful APIs** using Spring Boot, improving request handling efficiency by **30%**.
- Optimized **20+ SQL queries** (joins & indexing) in MySQL/Oracle, reducing average database response time by **25%**.
- Developed and maintained **5+ backend modules** with Spring Data JPA and Hibernate, enabling seamless CRUD operations.
- Performed API testing with Postman, reducing defects by **40%** during integration and QA phases.
- Debugged and resolved backend issues, contributing to **15% improvement** in application stability and uptime.
- Collaborated in Agile Scrum teams, consistently delivering sprint tasks on time.

PHP Intern

ITP Software India Limited

Oct 2024 – Feb 2025

- Developed backend features using PHP and CodeIgniter (MVC), enhancing core business workflows and data reliability by **20%**.
- Implemented secure authentication and database connectivity, reducing data access issues by **20%**.
- Built reusable backend components, decreasing future development time by **15%**.
- Managed version control with Git and followed SDLC best practices.

Java Intern

Triarights Solutions LLP

Jan 2024 – May 2024

- Developed backend features using Java, JDBC, and SQL for real-time projects.
- Applied full SDLC phases and version control using Git.

PERSONAL PROJECTS

E-Commerce Backend System — Java, Spring Boot, MySQL

- Built REST APIs for product, user, and order management.
- Integrated Spring Data JPA for efficient and scalable database operations.

Employee Leave Management System — Java, JDBC, MySQL

- Developed complete leave and salary tracking modules with relational database schema.
- Wrote optimized SQL queries for reporting and transactions.

EDUCATION

- B.Sc. Computer Science — SVR Degree College (2021–2024) — CGPA: 8.42
- MPC — Krishnaveni Junior College (2019–2021) — Marks: 932
- SSC — APSWR School (2019) — CGPA: 9.5
